iDocket.com announces adjustment on additional account billing 10/01/2018

Effective October 1st, 2018, all additional accounts will be billed at half price of the highest number counties searched of any User on the account.

The first primary account will be billed at the original full price and multiple accounts will be billed at half price; based on the highest number of counties searched of any user on the account.

For example, if you have 3 accounts on the Gold level monthly subscription:

- Account 1 – Gold searched for 1 County
- Account 2 – Gold searched for 3 Counties
- Account 3 – Gold searched for 2 Counties

Billing would be calculated depending on the highest counties searched between those three accounts. Account 2 is the highest number of counties being searched, so billing will be calculated using this accounts counties search. Your billing for Account 1 would be \$116.99 for the original price of the 3 counties on the Gold plan. Half price billing of a Gold level account for 3 counties is \$58.49, Therefore, Account 2 and Account 3 will be billed \$58.49 each for this billing cycle.

*Monthly billing is subject to change dependent on the number of counties searched.
